

Progress Report

What was achieved last week?

I checked the progress of the frontend and backend and listed completed tasks using ClickUp.

What is the focus for today?

To monitor system progress and update tasks in ClickUp.

What blockers exist?

Minor issues with frontend-backend connection and delayed task updates.

What went well?

Task tracking became more organized using ClickUp.

What didn't go well?

Some tasks were not updated on time.

What should we start doing?

Update tasks regularly and improve communication

What should we continue doing?

Continue tracking progress and organizing tasks.
